Personal Branding

Who is it for?

Professional: Perfect for small business owners that just want a quick update for their social media, especially a great choice for those that have had branding shoots before and know what they want.

Business Builder: This is the package for you if you're ready to take your business to the next level. This may be your first branding shoot, but you have a clear brand style and you know how you want to use your images, but maybe need a little guidance here and there. Or maybe you're updating your brand and need a fresh host of imagery to match!

New Starter: Never had a personal branding shoot before? Need guidance with your brand and have no idea how to incorporate your images? Look no further, I'll make sure we really nail your brand voice in our 30-minute consultation call. You'll then get a half day with me at a location of your choice which could be your home, office, or shop front. I'll guide you each step of the way through your shoot, and then you'll get another call when your images are ready so I can walk you through the best way to use them. You'll be well taken care of with this package!

Creative: This one is for all my creative business owners that want something a bit more out there, for my fans of colour and fancy. You'll get all the support of the New Starter package, but we'll spend more time designing something that is visually stimulating and spectacular.

Let your imagination run wild, whether you're designing an album launch, or you just want your images to be as bright and bold as you are, this is the package for you!
