PRICING GUIDE

Portrait

Who is it for?

Basic: Anyone looking for a few simple portraits of themselves, whether on location, or in the studio. Perfect for models looking for a quick book update with a new look, couples or families, or for social media announcements!

Creative: This is a session we get to have a lot of fun in, whether you're wanting to play with colour, bring a cosplay to life, or just add a bit of magic to your photos! This is perfect for artists, musicians, and creatives looking for something a bit different to elevate their social media presence. If you can dream it, I can help you create it!
